

# Sprayable thermoplastic guns

## Sprayable thermoplastic gun „Type H“

- for machines of serie H9 / H16 / RM3D / H17 / H18 / H26 / H33 as well as for roadmarking trucks
- with automatic cutoff of atomising air
- with adjustable limiter
- heating via thermal oil jacket
- **with nozzle set, calibration washers as well as limiter**

Applies for both types of guns:  
Applied **material quantity** is **always** dependent on

- marking speed
- material
- environment conditions
